

SVG Open 2005
PO Box 6
7500AA Enschede
The Netherlands

After Zürich, Vancouver, and Tokyo, SVG Open 2005 will take place on the Twente University campus in Enschede (the Netherlands) from August 15 to 18.

This conference and exhibition on Scalable Vector Graphics, the World Wide Web Consortium open standard for 2D graphics, will show the versatility of SVG, the 'HTML of graphics'.

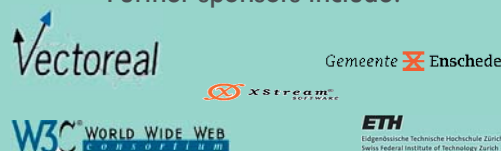

The programme features keynote plenary sessions and parallel paper sessions, and beginner and advanced level courses. The conference offers ample opportunity to get to know people from the SVG community and in the exhibition you will find vendors and commercial developers.

SVG

Scalable Vector Graphics

HTML of graphics
a W3C standard too

XML-syntax

wysiwyg tools
(your favorite drawing app too !?!)

animations and interactivity
(declarative SMIL and JavaScript, ..)

browser support in default releases
FireFox 1.1, current Opera, Konqueror,
or plug-ins

booming in mobile arena:
~billion handsets can,
many sold now pre-installed

server toolkits
(your route planning site before rasterizing?!?)

Super Versatile Goodie
from a nice image, to a MultiMedia director,
or a highly specialist technical drawing
program,
or a ...

learn all about it @

(see flip-side)
